QUIST, HARTFORD

OFFICIAL ORGAN: QST
KENNETH B. WARNER, EDITOR.

October 31, 1927

TO ALL OFFICIAL BROADCASTING STATIONS:

Eastern Stations: Please try to send the broadcast information to Western O.B.S. to put it in their hands at as early a date as possible. Western stations: Try to copy the broadcast when sent out from some eastern station. If you can't copy the broadcast when sent out from some eastern station. If you can't copy it direct on O.B.S. schedule, try to work some of the stations listed in QST from time to time, possibly arranging operating schedules with them to get the new broadcast promptly.

Please put the new broadcast (Nr. 214) on the air at once and send it from your station during a period of about one week. Send the broadcast on scheduled time and wavelength at a rate of speed that will make the broadcast easy to copy; not so slowly as to be tiresome and not so fast that it cannot be copied by beginners.

Wavelengths, calls of stations, and unusual words should be repeated after the error signal so that the receiving operator may get them correctly through QRN and QRM.

Sincerely yours,

F. E. Handy.

Communications Manager
